---

# Installing Ruby

---

- <http://learnrubythehardway.org/book/ex0.html>

---

# Learning To Program

---

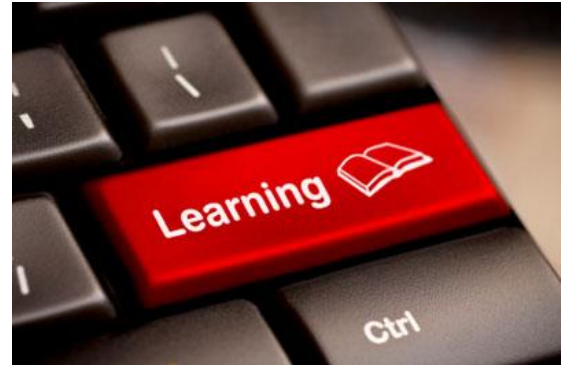

Some recommendations

---

# People are different

---

- Everybody learns differently
- Play to your strength
- Give feedback

# Build your own opinion

---

- Don't believe everything we say
- Things change
- Keep an open mind

# Formatting your code

---

- Pattern recognition
- Conventions
- Consistency

# Error messages - your best friends

---

- Learn to read error messages quickly
- Don't be discouraged
- Error messages mean progress
- Ruby is trying to help

# Using Google

---

- Find the right terms
- Always include the word “Ruby”
- Other people had the same problems
- Stack Overflow
